Spelling Machine | At School

Hardcover 230 x 230 mm / English Language

ISBN: 9786140605930

• 30 words
• 6 scenes
• Instructions

4+ years

To master reading and writing, every child

needs one essential skill: **Spelling**

Yes, but how can we make it fun and effective?

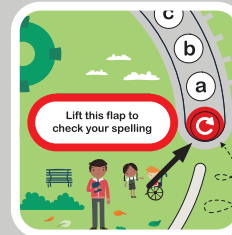

- Within each scene, children search for five objects, sharpening their concentration and observation skills.
- They read each word aloud, practicing the correct pronunciation of each letter.
- Using the spelling wheel to match the sound of the letter with its picture, they learn how to spell in a fun way, making it easier to write the words correctly later on.

Through this interactive book, children will:

- Link letters to their corresponding sounds and form a correct word.
- Recognize letters and remember them through active learning.
- Strengthen their language, cognitive, and fine motor skills.

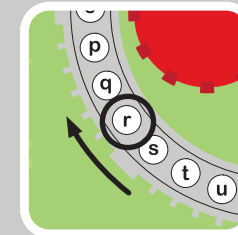

3 Magical Steps to activate the amazing Spelling Machine

1 Start

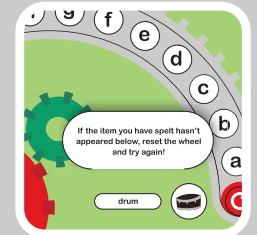

The magic begins by placing the red circle on the reset position.

2 Dial

Place your finger onto the wheel mechanism and dial in the letters of each word clockwise.

3 Lift

Lift the flap to check your spelling!
